EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2021-Present	B.Tech Computer Engineering	JSPM's Rajarshi Shahu College of Engineering	8.2
2021	Senior Secondary	Maharashtra State Board	90.83%
2019	Secondry	Maharastra State Board	94.20%

EXPERIENCE

- **Probus Software PVT LTD** *Nov 2024 - present*
  Software Developer Pune
  - Designed and developed scalable industrial applications using React Native, including an Attendance Management app , Facility Management app , Meeting Planner tailored for executives and their assistants, ensuring seamless cross-platform functionality.
  - Collaborated with cross-functional teams to deliver high-quality solutions, reducing development time by 15%.

- **MonkBless** *April 2024 - June 2024*
  Frontend Developer Intern (Remote)
  - Orchestrated the end-to-end development of a high-performance e-commerce platform using Angular and Tailwind CSS, delivering a seamless, responsive, and intuitive user interface.
  - Engineered robust API integrations for dynamic data processing and implemented enterprise-grade JWT authentication to ensure secure and scalable user access.

PROJECTS

- **gofarwithme** **Link**
  - Built an AI-powered travel planner using React, Gemini AI, and Firebase for personalized trip recommendations.
  - Implemented secure authentication and data storage with Firebase, ensuring user privacy.
  - Increased user engagement by 30% through personalized trip recommendations
  - Utilized AI for smart travel suggestions, enhancing user experience with data-driven insights.
  - Technologies used: React , TypeScript , TailwindCSS , Firebase , Gemini AI

- **AttendanceSystem** **Github**
  - Developed a mobile-based attendance system using React Native..
  - Built an offline-first architecture with AsyncStorage for storing employee data. Integrated REST API for real-time data synchronization with the backend.
  - Used RTK Query and Redux for state management and API interactions.

- **noteNexus** **Github**
  - Created a platform for placement preparation, enabling users to share and manage important notes, enhancing study efficiency by 60%.
  - Added real-time collaboration tools like live editing and commenting, increasing user engagement and interaction by 40%.
  - Implemented secure JWT authentication, protecting access for 10+ users and reducing unauthorized access by 50%.
  - Technologies used: Angular, JWT, TypeScript, Node, Express , MySQL

TECHNICAL SKILLS

- **Languages**: C++
- **Technical Skills:**: HTML, CSS, TailwindCSS, Javascript, TypeScript, React , Angular, React-Native, Node.js, MySql
- **Tools & other:** : Github, Canva, Figma , Postman , FireBase , Webpack , Redux/Redux-Toolkit
- **Fundamental Subjects:** : Operating System, Database Management System, Networking , OOPS

CERTIFICATION

- **Postman Fundamental Student Certification** *2024*
  - Gained proficiency in using Postman for API testing and development, including RESTful APIs.
  - Worked with RESTful APIs to test endpoints, verify responses, and ensure proper functionality.

Achievements

Idea Pitching Competition , Supra Build House, secured first position at the competition *Nov.2024*
